

§ 179.200-15 Closures for manways.

- (a) Manway covers must be of approved type.
- (b) Manway covers shall be designed to provide a secure closure of the manway.
- (c) Manway covers must be of approved cast, forged, or fabricated metals. Malleable iron, if used, must comply with ASTM A 47 (IBR, see §171.7 of this subchapter), Grade 35018. Cast iron manway covers must not be used.
- (d) All joints between manway covers and their seats shall be made tight against leakage of vapor and liquid by use of gaskets of suitable material.
- (e) For other manway cover requirements see §179.201-1.
